No more than 50% of an accounts collateral value can be utilised for initial margin in any one position. No collateral will be given on a stock where an account has a long CFD position in the stock. Any margin call must be covered on the day the call is made. Minimum account size is £50,000. Initial margin can and will be increased at short notice if a position becomes larger than the normal market size traded in a day. For more information contact us on **+44 207716 8300** or by email at **adm.securities@admisi.com**. ADM Investor Services International Limited ("ADMISI") is able to provide both Institutional and Professional Clients with an efficient Execution Only service in worldwide CFDs. As with other derivative products, these instruments trade on a margin basis. Initial margin requirements are also indicated on the following page. Variation margin is calculated on a daily 'mark-to-market' basis, and will be credited/debited on a daily basis. Any debit variation margin must be covered by cash on the same day. Due to the leverage of such products, ADMISI restricts the availability of this trading service, to Professional Clients, as defined by the Financial Conduct Authority ('FCA') Client Categorisation Requirements. Accordingly, ADMISI will require proof of the relevant requirements to support the categorisation. As CFD's are categorised as an 'Over the Counter' (OTC) product, all trades are conducted with Counterparties in the name of ADM Investor Services International Limited ('ADMISI'), as principal, it is not able to transfer client funds to such Counterparties and accordingly, is therefore unable to offer segregation to its clients. It should be noted that ADMISI is regulated and licensed by the FCA and it acts solely in the capacity of a Broker, and it does not engage in any proprietary trading. ADMISI is required to comply, at all times, with FCA's strict financial requirements. Periodic reviews are conducted to ensure such requirements are met, and that reconciliations are performed on a daily basis to confirm the sufficient funds are maintained within the Company's Client Bank Accounts.
